## SUMMARY

I am a results-driven technology enthusiast with a proven capacity to adapt swiftly to new challenges. My early encounter with the tech market kindled my fervor, which I've nurtured through extensive training, particularly in Power BI, Power Automate, Excel, and R. My skills have been instrumental in transforming business processes, enhancing efficiency, and fortifying data security. I am keen to join a forward-thinking team where I can further harness my technological expertise for innovation and growth.

## PROFESSIONAL EXPERIENCE

### **AWS Billing Specialist | Bytes | Feb 2023 - Present**

- Entrusted with spearheading innovation post-graduation, mastering new software such as Power Automate and harnessing Excel and Power BI.
- Achieved an 80% reduction in production time, optimizing invoice generation and paving the way for added responsibilities.

### **Website Manager | Life Balances | Jan 2019 - Jan 2023**

- Orchestrated the design and upkeep of the Life Balances website, a platform for corporate team-building.
- Played a pivotal role in acquiring the company's initial clientele.

### **Account Assistant | Richmond Group | Feb 2019 - Apr 2019**

- Managed the seamless transfer of customer data, honing skills in Microsoft SQL and Excel.
- Imparted training to peers, enabling them to process voluminous client data.
- Showcased exemplary organization and communication, meeting stringent accounting deadlines.

### **Data Analyst | Conversity - London | Apr 2016 - Aug 2016**

- As part of the marketing wing, executed research and data analysis for a London-based software enterprise.
- Created an online video for my AS, EPQ, encompassing stakeholder interviews, storyboard creation, requirement documentation, and video editing. Mentored by a BAFTA award-winning video editor.

## EDUCATION

### **Economics BSc(Hons) | Swansea University | Jul 2019 – Apr 2022**

- Grade: 2:1
- Final Year Project: Extensive analysis of over 100 datasets using Power BI to devise optimal financial and economic strategies for the UK government's carbon neutrality goal by 2050.

### **3 A 'Levels | Truro School, Cornwall | Jul 2015 – Apr 2017**
